How to Review Your Tagged CCP Eligible Credits

You can view CCP-tagged credits using the public reports available to anyone, even if you don't have a registry account. If you are an account holder, these same reports are also available once you log into your account.

Step-by-Step Instructions

1. Go to the Public Reports page

- From the Reserve Registry, go to the Public Reports section.
- You can also access it directly from your account homepage after logging in.

2. Select "Project Offset Credits Issued"

- Click on the report titled Project Offset Credits Issued.
- This report lists all credits issued across projects.

3. Filter to find your project

4. Check the "ICVCM CCP Eligible" column

- Credits that are tagged as CCP Eligible will show "Yes" in this column.
- A "No" or blank value means those credits are not CCP-tagged.

5. View more details (optional)

- Click on the number under the "Total Offset Credits Issued" column to see a detailed breakdown of credits.
- The CCP label will also appear within the credit details page.
